Course enrollments take 24-48 hours to be transmitted from CUNYfirst to Blackboard. If your course is listed as "not currently available," your instructor has not made it available to students. Most instructors will not make their course available until the first day of the semester. If you are still seeing the course as unavailable AFTER the first day of class, contact your instructor. If you are missing courses, verify your course enrollment in CUNYfirst and see your campus Registrar. If you can see the missing course in CUNYfirst and it is more than 24 hours after you have registered, please see your campus Blackboard Support representative.
